2022 Best Use of Volunteers (BUV) Award: $3,000

The "Best Use of Volunteers" award recognizes organizations that most effectively leverage volunteers to fulfill their mission.
Organizations use volunteers for many types of activities, services, events and projects. The volunteers can have direct contact with the organization's clients or serve in support roles. They may utilize specialized skills or perform what might be considered low-skilled activities.

The "Best Use of Volunteers" award is separate from BACF's regular grants.
It requires a separate submission because it will be reviewed and evaluated independently and concurrently with a grant application. An organization does not have to apply for a regular BACF grant to apply for the BUV award. The deadline for both applications is the same.

Your response is to be inputted into the Best Use of Volunteer application on the BACF website. You must create an account online before the BUV application becomes available for completion.
